PREFACE

The twenty-ninth annual volume of the Industrial Arts Index is a cumulation of the monthly issues published from December, 1940, thru November, 1941. In the list of magazines indexed, the French and German titles have been retained, altho no French periodicals have been received since the beginning of the war, and no German periodicals since June, 1941. It is hoped that the indexing of these periodicals will be included later. Société des Ingénieurs Civils de France, Mémoires, and Chemische Fabrik are permanently dropped from the list. Eighteen periodicals, not previously included, are indexed in this volume. If these periodicals began a new volume number in the last half of 1940, the indexing is carried back to the beginning of the new volume. The added titles are as follows: Acoustical Society of America, Journal; American Institute of Banking, Bulletin; Ceramic Industry; Diesel Power and Diesel Transportation; Industrial Marketing; Industrial Medicine; Journal of the Aeronautical Sciences; Journal of Chemical Physics; Journal of Retailing; Machine Design; Modern Packaging; Paint, Oil and Chemical Review; Petroleum Engineer; Photo Technique; Soap and Sanitary Chemicals; Society of Motion Picture Engineers, Journal; Technology Review; Welding Journal.

Photo Technique has been merged with American Photography and will continue to be indexed in 1942 under its new name. Printers' Ink and Printers' Ink Monthly have been consolidated in a weekly publication of standard size.

In addition to the indexing of the listed periodicals, this volume contains subject entries for numerous bulletins, reports, and pamphlets on topics which the indexed periodicals cover. It contains also subject entries for 2553 books which have been listed first in the monthly Index, in the section "Some Recent Book Titles" before becoming a part of the main alphabet.
